

About

RPS LEICHT

The Leicht General Agency was established in Houston, Texas in March, 1992. Our company and reputation were built on a foundation of knowledgeable people and unmatched service. In February of 2008, we joined Risk Placement Services, Inc. as a merger partner and became RPS Leicht.

We specialize in Property, Casualty, Packages, Auto, Garage, Professional, Inland Marine, Umbrella and Excess placements through a variety of "A" rated carriers. As part of one of the fastest growing specialty wholesalers and the largest Managing General Agent (MGA) in the nation,* we have access to more markets and a greater ability to tailor customized solutions than our competitors.

At the same time our local and regional expertise means we understand the unique nature of the social, economic, legal and environmental climate that you and your clients operate in. This permits us to provide you and your clients cost effective products and services tailored to each individual risk.

If you have specific questions please contact an RPS Leicht underwriter. You can find our office contact directory and more information on our products and services at:
